Get your career off to a great start. What impact will you make?

We’re always looking for people with the relentless energy to drive and push themselves further. To find new avenues and unique ways to reach our shared goals. At Deloitte, we know that being the undisputed leader means empowering our people to be the very best they can be – so they can make an impact that matters.

We offer a truly differentiated Talent Experience that empowers our people with unlimited opportunities to do meaningful work and to grow, learn, and lead at every point in their career. Deloitte’s workplace of the future is a unique workspace that strengthens connections and inspires innovative ways of working providing our people with the tools to make an impact that matters.

Lead yourself. Lead a team. Lead the firm. It’s all possible at Deloitte.

Deloitte is one of Canada’s leading professional services firms, providing audit, tax, consulting and financial advisory services across Canada. At Deloitte, we combine industry insight with a deep understanding of today’s local and global business challenges to give our clients the intelligent, practical and principled solutions they need to resolve both today’s and tomorrow’s challenges.

Let Deloitte show you how to push your career to the next level. And let your story unfold.

Role Description:

We are currently looking for qualified professionals to join our Technology consulting group. You will join a Deloitte team that prides itself by helping clients to not only solve complex business and technology problems but also to execute on the advice we provide. We work with a diverse group of clients around the world to help them to create competitive advantages, improve shareholder value and improve the performance of their businesses.

Join a collaborative engagement team that creates value for our clients by developing creative solutions that are visionary as well as pragmatic – solutions that have impact from the back room to the boardroom. Joining our team means joining a workplace of the future, where we’re breaking down barriers across all levels, services, roles and functions. At Deloitte we believe in leveraging diverse perspectives for results and solutions that can’t be matched.

As a Business Technology Analyst, you will be part of a client engagement team with a specific set of responsibilities. Leveraging state-of-the-art technologies, you will work on a variety of projects such as large scale ERP application design and implementation, technology strategy and advisory, architecture design & development, enterprise software implementation and custom application / system design.

Today’s consulting industry is very dynamic, creating an environment that is fast-paced and challenging. Every project incorporates different skills and technologies, providing an excellent opportunity to experience and learn from a wide scope of Deloitte services. As a Business Technology Analyst on our
team, you are exposed to complex business issues from a variety of clients in major industries including Energy and Resources, Manufacturing, Consumer Business, Financial Services, Public Sector, Telecommunication & Technology. Your journey with us will represent a rich and rewarding experience, with the opportunity for a long term career.

Our Technology Consulting group provides a range of services, below are some examples of the types of work we do:

Our **Technology Strategy and Architecture (TS&A)** practice provides Technology Advisory and Implementation solutions that extract and maximize our client’s business values from IT investments. We provide advisory through end-to-end implementation services as well as outsourcing advisory services and are recognized in the marketplace for capabilities across the spectrum. [Learn More](#)

Our **Analytics & Information Management (A&IM)** practice provides services that focus on one of our clients’ most important assets — information. We help organizations actively manage their costs and margins by empowering clients to deploy technology and processes that enable efficient management and delivery of actionable information. [Learn More](#)

**Application Management Services (AMS)** operates from our network of Global Delivery Centers (GDCs) and offers application support and maintenance, remote development, continuous improvement, database management, infrastructure management, help desk services, and advisory services. [Learn More](#)

Our **SAP** practice is deeply experienced in the full range of implementation challenges; from the complex, global ERP projects through to rapid, mid-market projects, SAP offers both on premise and Cloud offerings. [Learn More](#)

Our **Oracle** practice helps clients successfully implement Oracle's full range of enterprise applications products that include integrated suites of business applications software – Oracle Cloud ERP, Oracle E-Business, PeopleSoft Enterprise and JD Edwards Enterprise One. [Learn More](#)

Our **Digital Integration** practice drives technological change to support our clients through large scale organizational transformations across multiple industries. [Learn More](#)

The **Digital Customer** practice is dedicated to helping organizations along the Customer's Journey by maximizing the value of every touch point across all Digital and traditional Channels, for Marketing, Sales, Service and other front office business functions. Our practice is actively engaged in driving innovative solutions for our clients across all Digital Channels and platforms such as Salesforce, Oracle CX and Microsoft Dynamics. [Learn More](#)

You’ve heard it before; **Deloitte Digital** has changed everything. We’re all more connected, more informed, more interactive. To be effective in this new world, you need a different kind of partner—one that tears down the traditional model of creative, tech, and business services-in-silo. Deloitte Digital is defining that new model. We are an agency and a consultancy that combines leading digital and creative capabilities with the deep industry knowledge and experience our firm is known for. [Learn More](#)

**Qualifications:**

Successful candidates demonstrate an interest in their selected service line and will have the following attributes:

- Graduating by September 2018 with an Undergraduate Degree in Computer Science, Engineering Math, Commerce, ERP-related program (i.e. SAP, Oracle, PeopleSoft, Salesforce.com), or other relevant Degree
- An exemplary record of achievement in school both academically and in extracurricular activities
- Effective communication skills, both verbal and written
• Excellent interpersonal skills and demonstrated ability to work with others effectively in teams

• Must be legally able to work in Canada
• Canadian travel required and occasional international travel. Candidates must be able to enter the
  USA to work on client assignments
Experience with one or more of the following technologies is considered an asset (but not all required in
order to apply):

• Enterprise Applications (e.g., SAP, Oracle EBS, PeopleSoft, JDE, Workday, ServiceNow, Guidewire,
  Salesforce, Microsoft Dynamics, Siebel)
• Front-End (e.g., HTML5, .NET, PHP)
• Mobile Application Development (e.g., iOS, Android, BB, Windows)
• Application Integration (e.g., Service Oriented Architecture (SOA), BPEL, BPMN, ESB, ETL)
• Reporting (e.g., Hyperion, Business Objects, BI Publisher, SAP Crystal Reports)
• Programming / Scripting Languages (e.g., Java, C#, C/C++, Ruby on Rails, Node.js, Springboot,
  Python, JavaScript)
• Database (e.g., Oracle, MySQL, SQL Server, PL/SQL, MS Access)
• Infrastructure / Cloud / Dev Ops (e.g., AWS, Azure, IBM, HP)
• Delivery Methodology (e.g., Lean / Agile / Scrum, SDLC / Waterfall)
• Productivity (e.g., MS Office Suite (Word, PowerPoint, Excel, Visio, Project))

Application Instructions:
Only complete applications can be considered, please ensure to include the following:

• Please submit your resume, cover letter, and unofficial transcript
• You must indicate your office location and service line preference in your cover letter
• Please ensure that institution information in your Deloitte profile is accurate and up-to-date
• All applications must be submitted no later than 11:59pm EST on the deadline date

Application Deadlines:

Vancouver: September 24th

Deloitte is an inclusive employer dedicated to building a diverse workforce. We encourage applications
from all qualified candidates and will accommodate applicants’ needs under the respective provincial
human rights codes throughout all stages of the recruitment and selection process. Please advise the
Recruiter to ensure your accessibility needs are accommodated throughout this process. Information
received relating to accommodation will be addressed confidentially.

We thank all applicants in advance for their interest; however, only those candidates selected for an
interview will be contacted.
