BC Public Service Agency
Victoria

This position is excluded from union membership.
This posting is to establish an eligibility list for future permanent and/or temporary vacancies.
The immediate need is for a temporary opportunity until November 29, 2019.
This position may become permanent.

Application Programmer
$58,629.96 - $66,726.25 annually effective April 14, 2019

This programmer role is a key position on the @Work web team within the Policy, Innovation and Engagement Division of the BC Public Service Agency, the Public Service Engagement and Corporate Initiatives (PSECI) branch. This branch leads and coordinates corporate internal communications and employee engagement and recognition programs in support of the goals of the corporate plan Being the Best.

Reporting to the Manager, Web Strategy, the programmer works on a technical team that envisions, builds and supports technical solutions on a Drupal platform reaching over 27,000 members of the BC Public Service.

If you have a computer science background and significant IT change control experience and are looking for an opportunity to grow your technical and leadership skills, we encourage your application.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

- A Degree in Computer Science or related discipline, and a minimum of 2 years’ *related experience; OR a equivalent combination as described below may be considered; or, Diploma in Computer Science or related discipline, and a minimum of 3 years' *related experience; or, Certificate or program completion in Computer Science or related discipline, and a minimum of 4 years' *related experience; and/or, an equivalent combination of education, training and experience in the related field.
- Experience participating in project teams.
- Experience maintaining and administering Drupal modules or PHP.
- Experience building database-driven web sites (must be able to provide samples of work).
