Do you have a passion for travel, technology, music, sports and entertainment? We are Hiring a **Frontend Web Developer (React, JavaScript)** in Vancouver!

About Us:
Launchtrip is an innovative travel event-tech company based out of Vancouver. Our company focuses on global travel to music, entertainment, sports and corporate events. We’re passionate about discovering new cities, hotels, venues, entertainment and food all around the world and curating an amazing experience through innovative technology - yes, we actually do this for a living! We are looking to build a world-class team in Vancouver and New York as we work towards global expansion. If you love travel and technology, then you’ve found your following! We offer a minimum of two weeks vacation, flex time, benefits, bonuses and options. If you think you’re a fit and looking for a fulfilling job with work/life balance in Vancouver, we would love to hear from you.

About the Job:
You will be part of an extremely talented and highly motivated team whose purpose is to build and deliver a world-class solution and experiences for consumers.

- Build new production-ready web apps from the ground up
- Maintain and Improve existing web apps
- Work with UX designers to implement experiences and improve usability
- Collaborate with back-end developers to build features

About You:
Minimum 5 years Frontend/JavaScript Experience

- Excellent communication skills
- Write high quality code
- Ability to understand business requirements and translate them into technical requirements
- Pragmatic mindset to problem solving - you know how to pick the right tool for the job
- Proactive attitude, self-starter with a can-do attitude and eagerness to learn and improve
- Strong proficiency in JavaScript
- Thorough understanding of React.js and it’s core principles
● Proven experience with popular React.js workflows (such as Flux or Redux)
● Familiarity with RESTful APIs
● Familiarity with modern front-end build pipelines and tools
● Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
● A knack for UX
● Strong command of CSS/SASS
● Knowledge in cross-browser support

Benefits:
● Full-time, Permanent Employee
● Salary: TBD based on experience
● Benefits and stock options in line with company policies

Next Steps:
● Email your CV to careers@launchtrip.com
