

Software Engineer, Front End (regular full time)

RESAAS is a cloud-based social business platform for the real estate services industry. Our platform tools are made available exclusively to real estate agents, brokerages, franchises and MLSs. Over 400,000 real estate professionals across the globe are currently using RESAAS for their real estate business. We're transforming the real estate industry and allowing real estate professionals to network on a vertical-specific business platform.

At RESAAS, we believe in constant innovation and collaboration. All employees have a voice and an opportunity to present and lead new ideas. We're looking for someone who, like us, is passionate about what they do and driven to excel in the workplace.

As a Front End Software Engineer you have experience developing web applications using the latest front end standards and are able to provide technical and development expertise to our growing team of developers.

You are a self-starter and an innovator, coupled with an aptitude for collaboration, open communication and continuous feedback.

What are the responsibilities of the role?

- Build new features for the RESAAS platform
- Improve and maintain existing platform features
- Write concise, legible and performant code
- Build dependable high quality experiences our users will love
- Collaborate with the back-end team to ensure seamless integration between server and browser
- Participate in design reviews and code reviews
- Write unit tests, integration tests, UI tests
- Effectively communicate your insights, ideas, project updates and challenges

What does it take to be successful in this role?

- A related New Media Diploma and/or Computer Science Degree from an established school and/or relevant experience.
- 3+ years experience writing HTML and SCSS/CSS
- 3+ years experience writing Javascript
- Growing knowledge of front end techniques and best practices

Bonus Points:

- Experience with React, Vue or other MV* libraries
- Experience with Webpack, Node, NPM or other build tools
- Experience in UX/UI design
- Experience in Agile software development methodologies
- Experience in Devops methodology and environment
- Experience with testing, manual or automated

What we offer:

- Extended Health, Dental, and Vision benefits
- MSP coverage
- Generous vacation days, sick days, and personal days
- Paid time off from Christmas Eve to New Year's Day
- Stock options
- Free monthly lunches, weekly snacks & drinks, regular social events
- Opportunity to work on what you're passionate about
- Great location in Downtown Vancouver with the best cafes and restaurants!
