TRAINEE SOFTWARE DEVELOPER, ANIMISM STUDIOS

DESCRIPTION

Animism Studios (https://animism.studio/) is an innovative Visual Effects Studio that produces CGI for films and streaming series. We pursue the development of new technologies and research of new ways to achieve excellence in computer graphics in the entertainment industry.

We’re located in downtown Vancouver, and although we encourage our employees to work from home, you may be need on site from time to time.

You will be part of a dynamic, creative, and fun environment working on exciting film and TV series productions. Our clients include Netflix, Apple TV+, Amazon Studios, and other major film and steaming services.

We’re looking for candidates with the following skills, interests and qualifications:

- Drive and eagerness to learn
- Strong problem solving and communication skills
- Able to work independently and take initiative, as well as work collaboratively and contribute to an agile team environment
- Analyzing information
- General programming skills
- Software design
- Software debugging
- Software documentation
- Software testing
- We really appreciate candidates that have contributed or created open source projects

Required Technical and Professional Expertise

- Must have basic knowledge in one of the following programming languages: JavaScript, PHP, C/C++ and/or Python.
- Willingness to complete the requirements of the apprenticeship program.

Preferred Technical and Professional Expertise

- We are interested in all candidates who have a good attitude, and are great problem solvers.

Please apply by sending your cover letter, resume and links to any other relevant documents to jobs@animism.studio

Be sure to write Trainee Software Developer in the subject line.
