Full Stack Developer

Job description

We are seeking a skilled Full Stack Developer to join our dynamic team at Clause Technology. Clause Technology is a technology consulting start-up that provides solutions to clients in need. The ideal candidate will have at least 2 years of experience developing robust and scalable web applications. As a Full Stack Developer, you will work on both the front-end and back-end, contributing to all stages of the software development lifecycle.

Responsibilities

- Design, develop, and maintain web applications using ReactJS for the front-end and Node.js for the back-end.
- Build and optimize RESTful APIs for seamless integration with the front-end.
- Write efficient, reusable, well-documented SQL queries for database management and optimization.
- Collaborate with cross-functional teams to gather and refine technical requirements.
- Debug, troubleshoot, and upgrade existing software systems.
- Ensure high-quality performance, scalability, and security in all deliverables.
- Participate in code reviews to maintain clean and maintainable codebases.

Requirements

- At least 2+ years of professional experience as a Full Stack Developer or in a similar role.
- Strong proficiency in ReactJS, including component-based development, state management, and front-end testing frameworks.
- Solid experience with Node.js or similar Python-based frameworks for back-end development.
- Hands-on experience with SQL, NoSQL and Database Management (e.g., PostgreSQL, MySQL, SQLite, or MongoDB).
- Familiarity with version control systems (e.g., Git).
- Knowledge of RESTful API design and integration.
- Excellent problem-solving skills and attention to detail.
- Ability to work effectively in a team environment and effectively communicate technical concepts.

CLAUSE
TECHNOLOGY

1550 - 320 Granville St, Vancouver, BC, Canada, V6C 1S9
Clause Technology Inc.

Preferred Qualifications

- Experience with Docker, Kubernetes, or other containerization technologies.
- Experience with AI-related frameworks and platforms such as LangChain, LangGraph, and OpenRouter
- Knowledge of cloud platforms like AWS, Azure, or GCP is an asset.
- Understanding of CI/CD pipelines.
- Familiarity with Agile methodologies.

Clause Technology is an equal opportunity employer and welcomes applications from all qualified individuals. We thank all applicants for their interest, however, only those selected for an interview will be contacted. Please feel free to send us your resume on careers@clause.tech.

If you're passionate about building innovative web applications and enjoy working in a fast-paced environment, we would love to hear from you!
